

Contribution towards the knowledge of bristletails (Microcoryphia Machilidae) of Italy

Vladimir KAPLIN

Samara Agricultural Academy, Samara, Russia

Abstract

Four new species: *Charimachilis manfredoniae* sp. nov., *Lepismachilis rosannae* sp. nov., *Lepismachilis civaldis* sp. nov. and *Lepismachilis montana* sp. nov. of the family Machilidae (Microcoryphia) are described from Italy. Keys to all known species and subspecies of the genus *Charimachilis* Wygodzinsky and subgenus *Lepismachilis* (*Berlesilis*) Verhoeff are given. There are new data on the distribution in Italy of species *Trigoniophthalmus alternatus* (Silvestri).

Key words: Machilidae, *Charimachilis*, *Lepismachilis*, new species.
